

Spring Home Learning Plan - Week 7 - Incy Wincy Spider

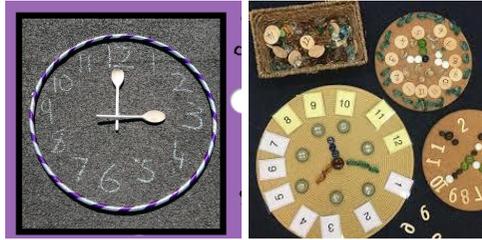

Hi,
I'm sure I can hear your sighs of relief when you read this! Last week of Home Learning, you have all done an amazing job supporting your children and I can't wait to see them all next week. This week we are focusing on Spiders with two stories (I apologise now to those parents who don't like spiders!) World Book day is on Thursday, I thought the children could choose their favourite book, read it with you and have a photo taken of them with their book for the website. They could also say why it is their favourite book! There are some lovely activities on the World Book day Early Years page should you wish to do some of the activities <https://www.worldbookday.com/resources/nursery/>. Have a lovely week and I look forward to seeing you all on the 8th of March. Please get in touch if you have any questions or queries.
Sophea

Activites

- Watch and listen to the story Incy Wincy Spider using the following link <https://www.youtube.com/watch?v=A4Jec0vqCZA>
- Join Cat Sandion for some listening fun, story and rhymes. The story is Anansi the Spider. <https://www.bbc.co.uk/teach/school-radio/eyfs-listen-and-play-a-very-special-spider/z73f6v4>
- Make/create your very own spider, web and spout using a variety of mediums and materials.
- Watch these short videos/programmes about spiders <https://www.bbc.co.uk/programmes/p011t71w>, <https://www.youtube.com/watch?v=WUx2qqPUyOI>
- Use the Powerpoint attached to the email to find out some spider facts. You can talk to your child about the different parts of the spider, there is a sheet attached to the email to help with this.
- Draw a spider and label some of the body parts (you can scribe for nursery children when they name the parts)
- Learn the rhyme Incy Wincy Spider using the following link <https://www.bbc.co.uk/teach/school-radio/nursery-rhymes-incy-wincy-spider/zr4yt39>
- Learn the Nursery Rhyme Hickory Dickory Dock <https://www.bbc.co.uk/teach/school-radio/nursery-rhymes-hickory-dickory-dock/znpj47h>
- Watch Maddies do you Know all about clocks <https://www.bbc.co.uk/iplayer/episode/b09ynfmb/maddies-do-you-know-series-2-4-clock-and-cutlery>, you only need to watch the first part about clocks but if you want to find out about cutlery you can watch the whole episode.

- Make your own analogue clock? Use it to tell the time to o'clock and half past if you want to introduce that too. Time is a really difficult concept for children, this is just an introduction! Look at the clock throughout the day and talk about it with your child. This is the best way to learn time and can be carried on easily. You could also make a loose parts clock!

Reception Only

- Phonics - oi, ear, air
 - oi - watch the following video https://www.youtube.com/watch?v=Z-0wWdE-Ezg&list=RDCMUCraBbapvgSgtvV9_pJ9O0OQ&start_radio=1&t=30 Use the oi sheet attached to the email. Write a silly sentence in your book using the oi words, use phonic knowledge to sound out words.
 - ear - watch the following video <https://www.youtube.com/watch?v=4JSwmP61nXo> Use the air phoneme roll and read mat attached to the email.
 - air - watch the following video <https://www.youtube.com/watch?v=uZHKK9jnfFQ&t=11s> Use the air sheet attached to the email as a prompt, read the words, choose 8 words, draw and picture and write the word using phonic knowledge.
- This week we are exploring the concept of counting in 2s. I would suggest using pairs of socks as a resource. Use this Bitesize video as a starting point <https://www.bbc.co.uk/bitesize/clips/zw6n34j> Your child could find pairs of socks/shoes or any other objects in 2s, make different amounts and count in 2s. Match the numerals to the pairs. Talk about counting in 2s as a quicker way of counting larger groups of objects. Your child could sort a group of objects- cars/animals etc into 2s and count the total in 2s. Order the numerals you would land on when counting in 2s to 10/20 (you can remind the children of the even numbers from last week and say when we count in 2s from 0 all the numbers we land on are even). You could also make a collection of 2p coins and make a mini shop pricing objects in amounts of 2, then your child has to pay using the right number of 2ps. Use the 100 square and use counters objects to cover the numbers you would land on when counting in 2s. There is also a counting in 2s cut and stick activity sheet attached to the email for your child to use along with a counting in 2s worksheet.
- Phase 3 words, practice reading and writing the second column of words on the Phase 3 High Frequency Word Mat - with, for, he, them, down, me
Daily Reading and Phonics practice.

**Remember the rule for activities - 15 mins each of reading, phonics, maths and writing per day, if your child is happy to do more great but if not 15 of each is fine!
Have Fun!**
